## **INTRODUCTION**

1. My full name is Lorelle Jane Barry.
2. I have worked as a planner for over 18 years. I have been employed in the role of Team Lead Planning, Consenting at Rotorua Lakes Council ("Council") for approximately four years. Prior to holding this role at Council, I was a Senior Planner at The Property Group Limited, and before that, was employed by Sigma Consultants Limited for 11 years.
3. My role as Team Lead Planning, Consenting involves managing the resource consents team at Council. In this role I also review and approve resource consents, process resource consents and monitor conditions of resource consent to ensure condition compliance. I report to Mr Jason Ward, Council's Manager, Integrated Planning & Development
4. I hold the qualifications of a Master of Arts in History, Bachelor of Arts with Honours in History and Political Science, Bachelor of Law from the University of Waikato and a Postgraduate Diploma in Planning from Massey University. I am an associate member of the NZ Planning Institute.

## **PURPOSE OF THIS EVIDENCE**

5. My evidence focuses on the monitoring of consent conditions associated with the following existing resource consents:
  - (a) RC17647 - Lake Rotorua Hotel, 131 Lake Road;
  - (b) RC17648 - Alpin Motel, 16 Sala Street;
  - (c) RC17650 - Newcastle Motor Lodge, 18 Ward Avenue;
  - (d) RC17661 - Pohutu Lodge Motel, 3 Meade Street;
  - (e) RC17662 - Malones Motel, 321 Fenton Street;
  - (f) RC17673 - Union Victoria Motel, 26/28 Victoria Street;
  - (g) RC17887 - Ascot on Fenton, 247 Fenton / 12 Toko Streets;
  - (h) RC17889 - RotoVegas Motel, 249 Fenton / 14 Toko Streets;
  - (i) RC17890 - Midway Motel, 293 Fenton Street;

- (j) RC17891 - Geneva Motor Lodge, 299 Fenton Street;
  - (k) RC17892 - Ann's Volcanic Motel, 107 Malfroy Road;
  - (l) RC17893 - Apollo Hotel, 7 Tryon Street; and
  - (m) RC18244 - Emerald Spa Motor Inn, 284 Fenton Street.
6. I note that I have also been involved with monitoring the consent conditions of the three now exited contracted emergency housing ("CEH") sites:
- (a) RC17650 - Newcastle, 18 Ward Avenue;
  - (b) RC17892 - Ann's Volcanic, 107 Malfroy Road; and
  - (c) RC17673 - Union Victoria, 26-28 Victoria Street.
7. Because these three sites have now all been exited from CEH I have not turned my mind to these in this evidence.
8. My evidence will provide a summary of the monitoring and compliance inspections carried out to date. I will also comment on the effectiveness or otherwise of these conditions and where relevant provide any suggested changes to the conditions in relation to the seven applications currently before Council.

#### **CODE OF CONDUCT**

9. Although not necessary in respect of council hearings, I can confirm I have read the Expert Witness Code of Conduct set out in the Environment Court's Practice Note 2023. I have complied with the Code of Conduct in preparing this evidence and I agree to comply with it while giving oral evidence before the Independent Hearings Commissioner appointed by Council. Except where I state that I am relying on the evidence of another person, this written evidence is within my area of expertise. I have not omitted to consider material facts known to me that might alter or detract from the opinions expressed in this evidence.

## **SUMMARY**

10. Overall, I conclude that the consent holders' through the consent holder's representative, Te Tūāpapa Kura Kāinga – Ministry of Housing and Urban Development ("MHUD"), have complied with their conditions of consent. This conclusion is based on both formal and informal inspections of the CEH sites undertaken over the past year.

## **INTRODUCTION**

11. I have been involved with the monitoring and compliance of the existing 10 CEH sites and three exited sites since resource consents were granted by Council in December 2022, but more formally involved with inspections of these sites since August 2023. While Council has a dedicated Community Compliance Team for monitoring and ensuring compliance with resource consents, it is common for the planning consents team to be involved with the monitoring and compliance of a resource consent where the planner has processed the consent or where a planner has been involved with or is familiar with the consent requirements. In this case, the latter applies.
12. I can also advise that from December 2022 to August 2023, the Community Compliance Team were heavily involved in monitoring these consents and got them into a position whereby they were able to be handed to myself and Mr Ward for monitoring. This included working with the consent holders' and consent holder's representative to ensure conditions were both understood and complied with on an ongoing basis.
13. Therefore, over the past year or more I have completed formal inspections of each site dated 29 August 2023, 20 September 2023, 15 February 2024, 8 August 2024 and 22 August 2024. These inspections were accompanied by other Council Officers. In addition to these inspections, I have also carried out almost daily informal inspections from an off-site amenity perspective i.e. the general look and feel, of the

Fenton Street sites whilst driving and/or walking past these sites. I have also driven past Sala Street (the Alpin), Tryon Street (the Apollo), Meade Street (the Pohutu) and Lake Road (Lake Rotorua Hotel) at least once per week. For details of inspections, I have attached a spreadsheet as **Annexure A**.

14. While the formal inspections were carried out during normal working hours, the informal inspections occurred at various times including early in the morning and during night time hours.
15. The scope of my involvement with the compliance and monitoring of the original 13 consents, has been to monitor compliance with the conditions of consent. I am not involved in responding to any enforcement matters or complaints regarding these sites. Council's Community Compliance Team officers continue to respond to such matters. In this respect, I can report based on the advice of Council's Community Compliance team that since the granting of consents in December 2022, they have not received any complaints regarding the ten existing, or three former, CEH premises.
16. Unless a condition of resource consent is specifically referred to, I purposely group conditions and discuss these across all of the resource consents granted in December 2022. I have not discussed all conditions rather, I have only discussed those I consider to be fundamental to the operation of the sites.

## **INSPECTION OBSERVATIONS**

### **Comments on Conditions 7, 10 – 14, 16 – 17, 19, 20 – 21**

17. Each formal "on-site" inspection has involved checking the written records required to be kept and displayed under Condition 7. Ensuring landscaping, open space areas and boundary fencing is maintained in accordance with Conditions 10-14. For the Alpin, the Apollo and the Pohutu Motel, this has also involved checking that the consent holder displays information regarding the cultural significance of

Whakarewarewa Village and Te Puia as required by Condition 16 specific to these three consents.

18. The inspections have also involved checking to see that motel signage and advertising is not displayed as per Condition 17. Checking and ensuring that household storage is contained within individual units as per Condition 19 and that waste storage is screened from public view as per condition 20. In terms of Condition 21, the streetscape amenity is also inspected. In this respect, I note that where any shopping trolleys were located outside CEH sites these were recorded and both the consent holder and consent holder's representative advised. While shopping trolleys are certainly evident, it was a rare occurrence where a shopping trolley was located on a berm directly adjoining a CEH premise.
19. Consent holders have been receptive to remedying any immediate issues identified through site inspections. For example, during the 15 September 2023 inspection of the Ascot on Fenton, it was observed that vehicles were reversing onto Fenton Street because they were prevented from exiting the site via the thoroughfare to Toko Street. This section of Fenton Street is identified as an Urban Secondary Arterial in the Operative Rotorua District Plan and as such on-site turning is required (and reversing onto Fenton Street is not permitted by the District Plan). This was raised with the consent holder's representative and immediately rectified. Vehicles now enter via Fenton Street and exit the site via Toko Street.
20. It is also noted that at each inspection the CEH provider (Visions of a Helping Hand, Wera Aotearoa Charitable Trust, Emerge Aotearoa) was present on site. In most, but not all cases, security was also present.

#### **Exit Strategy – Condition 5**

21. An exit strategy was submitted for certification by Council in accordance with Condition 5 of the consents, on 14 June 2024. This exit strategy has

not yet been certified. This condition has become an ongoing matter for compliance subject to s124 of the Resource Management Act 1991 (RMA) due to the seven current resource consent applications to authorise CEH within these sites for a further year.

22. In this regard, I agree with Mr Batchelar's assessment at paragraph 29 of his s42A overview report that s124 of the RMA provides the ability for consent holders to continue to lawfully exercise their existing resource consent while applying for a replacement resource consent. In accordance with s124 of the RMA, while the Applicant must continue to adhere to the scope of the consent and all conditions of consent, I agree that it would not be appropriate to enforce a condition that requires the operation to cease when that operation can continue if the consents are granted. I would also add here that it is evident through the monitoring of the current 10 consents that the Applicant continues to adhere to the scope of the consent and conditions.
23. In relation to the three existing consents that are not being replaced – Emerald Spa, Midway Motel and Malones Motel, further details are still required regarding details of any required works to reinstate the buildings as a motel, before certification of the exit strategy can be confirmed. As of the most recent inspection it was observed through discussions with the on-site providers that they had stopped receiving people as of mid-July 2024.

#### **Occupancy – Condition 6**

24. Condition 6 relates to occupancy and provides for maximum numbers of occupants across each CEH premise. It is important to note that the occupancy numbers observed at the time of each formal inspection were all below that which was consented. In several instances actual occupancy was approximately half of what was consented. For reference, one of the larger premises, the Lake Rotorua Hotel, consented for 105 occupants across 93 units contained 78 occupants at the time of the

February 2024 inspection and 58 occupants at the time of the August 2024 inspection. Similarly, one of the smaller premises, the Geneva, consented for 41 occupants across 14 units, housed 17 occupants at the time of the February 2024 inspection and 25 occupants at the time of the August inspection.

25. It is important to note that this occupancy trend was observed at each formal inspection and in most cases, as with those identified above, were all below the maximum occupancy rate imposed in consent conditions. I do note that I do not know whether this means there are vacant units or whether there are fewer people per unit.

#### **Whakarewarewa Village and Te Puia – Conditions 15 – 17**

26. Conditions 15 – 17 of RC17648 (the Alpin), RC17893 (the Apollo) and RC17661 (the Pohutu), as applicable, require measures to inform about the location and cultural significance of Whakarewarewa Village and Te Puia relative to these CEH sites. Regular (six monthly) meetings with representatives is also a condition.
27. The compliance reports for all three CEH sites have responded to these conditions with the more recent compliance reports covering the period from 17 December 2023 to 16 June 2024 identifying the measures undertaken to comply with these conditions, including a summary of meetings and engagement.

#### **Site Management Plans – Conditions 22, 23, 24 or 25**

28. The site management plans required by Conditions 22, 23, 24 or 25, as applicable, are comprehensive. While Council holds copies of the site management plans for each premise, at every inspection the site management plan was available for viewing.
29. There has also been the ability through the consent conditions to amend the site management plans and / or recertify, this has never been

required. Overall, the site management plans have proved an effective tool to ensure the sites are being managed appropriately and with the ability to amend or recertify provide the opportunity to capture any additional issues as they arise.

**Community Liaison Group – Condition 26 or 27**

30. As required by Conditions 26 or 27, as applicable, of the resource consents, RLC, MHUD senior management and a nominated representative from the Community Liaison Group (“CLG”) have met every six months:
- (a) 9 March 2023;
  - (b) 8 June 2023;
  - (c) 7 September 2023;
  - (d) 28 February 2024;
  - (e) 26 June 2024; and
  - (f) 26 September 2024.
31. At the time of writing, minutes of these meetings were available on the MHUD website, except for minutes of the meeting held on 26 September 2024. I do not comment on the effectiveness or otherwise of these meetings, except to say that these meetings have occurred regularly, as per the condition parameters, and as such the condition is considered by Council to be satisfied.

**CONCLUSION**

32. Overall, I can conclude that there has been a high degree of compliance with the existing consent conditions across all of the CEH sites and that the conditions have been reasonably effective to implement. Regular monitoring, coupled with a high degree of consent holder engagement has also ensured ongoing compliance with conditions of consent.

**ADVICE NOTES:**

**Building Act**

1. This is not a Building Consent. The Building Act 2004 contains provisions relating to the construction, alteration, and demolition of buildings. The Act requires building consents to be obtained where relevant, and for all such work to comply with the building code.
2. Under the Building Act (Section 114), a building owner must give written notice to the territorial authority if they plan to change the use of a building. The consent holder should seek an independent report from a suitably qualified person addressing the potential change of use of the building as described in the Building Act and Building (Specified Systems, Change the Use, and Earthquake-prone Buildings) Regulations 2005, and provide written notice to Council as appropriate.

**Waste Management**

3. Waste management is addressed under the Council's Solid Waste Bylaw 2016. The bylaw has a general requirement for a waste management and minimisation plan to be prepared for multi-unit developments: 'Collection from Multi Unit Developments' (See Subpart 6 – Clause 20).

**Right of Objection**

4. If you are dissatisfied with any aspect of the decision, you have a right of objection to Council under section 357A of the Resource Management Act 1991. Please advise Council in writing stating the reasons for the objection and the preferred outcome within 15 working days of receiving this decision. If no objection is received it will be assumed that the applicant accepts this decision. In addition, there is a right of appeal to the Environment Court under section 120 of the Resource Management Act 1991.

**Monitoring of Conditions**

5. Fulfilment of the conditions of this consent within the timeframe specified in the consent is necessary to carry out the proposal for which this consent relates. Your progress towards satisfying the conditions of consent will be monitored by Council's Monitoring and Compliance Officer.
6. Please contact Council's Compliance & Regulatory Team ([RMACCompliance@rotorua.c.nz](mailto:RMACCompliance@rotorua.c.nz)) in relation to the completion and monitoring of the conditions of this consent. The consent holder will be charged for the administration, monitoring and supervision of this resource consent. Notwithstanding the above, where there is good and reasonable cause for unprogrammed monitoring and additional site inspections, the costs of that will be a charge on the consent holder. Such costs are recovered on an actual and reasonable basis as defined in the General Conditions and Notes of the Fees and Charges Schedule as approved by the Council in terms of Section 36 of the Resource Management Act 1991.

**ADVICE NOTES:**

**Building Act**

1. This is not a Building Consent. The Building Act 2004 contains provisions relating to the construction, alteration, and demolition of buildings. The Act requires building consents to be obtained where relevant, and for all such work to comply with the building code.
2. Under the Building Act (Section 114), a building owner must give written notice to the territorial authority if they plan to change the use of a building. The consent holder should seek an independent report from a suitably qualified person addressing the potential change of use of the building as described in the Building Act and Building (Specified Systems, Change the Use, and Earthquake-prone Buildings) Regulations 2005, and provide written notice to Council as appropriate.

**Waste Management**

3. Waste management is addressed under the Council's Solid Waste Bylaw 2016. The bylaw has a general requirement for a waste management and minimisation plan to be prepared for multi-unit developments: 'Collection from Multi Unit Developments' (See Subpart 6 – Clause 20).

**Right of Objection**

4. If you are dissatisfied with any aspect of the decision, you have a right of objection to Council under section 357A of the Resource Management Act 1991. Please advise Council in writing stating the reasons for the objection and the preferred outcome within 15 working days of receiving this decision. If no objection is received it will be assumed that the applicant accepts this decision. In addition, there is a right of appeal to the Environment Court under section 120 of the Resource Management Act 1991.

**Monitoring of Conditions**

5. Fulfilment of the conditions of this consent within the timeframe specified in the consent is necessary to carry out the proposal for which this consent relates. Your progress towards satisfying the conditions of consent will be monitored by Council's Monitoring and Compliance Officer.
6. Please contact Council's Compliance & Regulatory Team ([RMACCompliance@rotorualc.nz](mailto:RMACCompliance@rotorualc.nz)) in relation to the completion and monitoring of the conditions of this consent. The consent holder will be charged for the administration, monitoring and supervision of this resource consent. Notwithstanding the above, where there is good and reasonable cause for unprogrammed monitoring and additional site inspections, the costs of that will be a charge on the consent holder. Such costs are recovered on an actual and reasonable basis as defined in the General Conditions and Notes of the Fees and Charges Schedule as approved by the Council in terms of Section 36 of the Resource Management Act 1991.

#### ADVICE NOTES:

##### Building Act

1. This is not a Building Consent. The Building Act 2004 contains provisions relating to the construction, alteration, and demolition of buildings. The Act requires building consents to be obtained where relevant, and for all such work to comply with the building code.
2. Under the Building Act (Section 114), a building owner must give written notice to the territorial authority if they plan to change the use of a building. The consent holder should seek an independent report from a suitably qualified person addressing the potential change of use of the building as described in the Building Act and Building (Specified Systems, Change the Use, and Earthquake-prone Buildings) Regulations 2005, and provide written notice to Council as appropriate.

##### Waste Management

3. Waste management is addressed under the Council's Solid Waste Bylaw 2016. The bylaw has a general requirement for a waste management and minimisation plan to be prepared for multi-unit developments: 'Collection from Multi Unit Developments' (See Subpart 6 – Clause 20).

##### Right of Objection

4. If you are dissatisfied with any aspect of the decision, you have a right of objection to Council under section 357A of the Resource Management Act 1991. Please advise Council in writing stating the reasons for the objection and the preferred outcome within 15 working days of receiving this decision. If no objection is received it will be assumed that the applicant accepts this decision. In addition, there is a right of appeal to the Environment Court under section 120 of the Resource Management Act 1991.

##### Monitoring of Conditions

5. Fulfilment of the conditions of this consent within the timeframe specified in the consent is necessary to carry out the proposal for which this consent relates. Your progress towards satisfying the conditions of consent will be monitored by Council's Monitoring and Compliance Officer.
6. Please contact Council's Compliance & Regulatory Team ([RMACompliance@rotarualc.nz](mailto:RMACompliance@rotarualc.nz)) in relation to the completion and monitoring of the conditions of this consent. The consent holder will be charged for the administration, monitoring and supervision of this resource consent. Notwithstanding the above, where there is good and reasonable cause for unprogrammed monitoring and additional site inspections, the costs of that will be a charge on the consent holder. Such costs are recovered on an actual and reasonable basis as defined in the General Conditions and Notes of the Fees and Charges Schedule as approved by the Council in terms of Section 36 of the Resource Management Act 1991.

**ADVICE NOTES:**

**Building Act**

1. This is not a Building Consent. The Building Act 2004 contains provisions relating to the construction, alteration, and demolition of buildings. The Act requires building consents to be obtained where relevant, and for all such work to comply with the building code.
2. Under the Building Act (Section 114), a building owner must give written notice to the territorial authority if they plan to change the use of a building. The consent holder should seek an independent report from a suitably qualified person addressing the potential change of use of the building as described in the Building Act and Building (Specified Systems, Change the Use, and Earthquake-prone Buildings) Regulations 2005, and provide written notice to Council as appropriate.

**Waste Management**

3. Waste management is addressed under the Council's Solid Waste Bylaw 2016. The bylaw has a general requirement for a waste management and minimisation plan to be prepared for multi-unit developments: 'Collection from Multi Unit Developments' (See Subpart 6 – Clause 20).

**Right of Objection**

4. If you are dissatisfied with any aspect of the decision, you have a right of objection to Council under section 357A of the Resource Management Act 1991. Please advise Council in writing stating the reasons for the objection and the preferred outcome within 15 working days of receiving this decision. If no objection is received it will be assumed that the applicant accepts this decision. In addition, there is a right of appeal to the Environment Court under section 120 of the Resource Management Act 1991.

**Monitoring of Conditions**

5. Fulfilment of the conditions of this consent within the timeframe specified in the consent is necessary to carry out the proposal for which this consent relates. Your progress towards satisfying the conditions of consent will be monitored by Council's Monitoring and Compliance Officer.
6. Please contact Council's Compliance & Regulatory Team ([RMACCompliance@rotorualc.nz](mailto:RMACCompliance@rotorualc.nz)) in relation to the completion and monitoring of the conditions of this consent. The consent holder will be charged for the administration, monitoring and supervision of this resource consent. Notwithstanding the above, where there is good and reasonable cause for unprogrammed monitoring and additional site inspections, the costs of that will be a charge on the consent holder. Such costs are recovered on an actual and reasonable basis as defined in the General Conditions and Notes of the Fees and Charges Schedule as approved by the Council in terms of Section 36 of the Resource Management Act 1991.

ADVICE NOTES:

#### **Building Act**

1. This is not a Building Consent. The Building Act 2004 contains provisions relating to the construction, alteration, and demolition of buildings. The Act requires building consents to be obtained where relevant, and for all such work to comply with the building code.
2. Under the Building Act (Section 114), a building owner must give written notice to the territorial authority if they plan to change the use of a building. The consent holder should seek an independent report from a suitably qualified person addressing the potential change of use of the building as described in the Building Act and Building (Specified Systems, Change the Use, and Earthquake-prone Buildings) Regulations 2005, and provide written notice to Council as appropriate.

#### **Waste Management**

3. Waste management is addressed under the Council's Solid Waste Bylaw 2016. The bylaw has a general requirement for a waste management and minimisation plan to be prepared for multi-unit developments: 'Collection from Multi Unit Developments' (See Subpart 6 – Clause 20).

#### **Right of Objection**

4. If you are dissatisfied with any aspect of the decision, you have a right of objection to Council under section 357A of the Resource Management Act 1991. Please advise Council in writing stating the reasons for the objection and the preferred outcome within 15 working days of receiving this decision. If no objection is received it will be assumed that the applicant accepts this decision. In addition, there is a right of appeal to the Environment Court under section 120 of the Resource Management Act 1991.

#### **Monitoring of Conditions**

5. Fulfilment of the conditions of this consent within the timeframe specified in the consent is necessary to carry out the proposal for which this consent relates. Your progress towards satisfying the conditions of consent will be monitored by Council's Monitoring and Compliance Officer.
6. Please contact Council's Compliance & Regulatory Team ([RMACCompliance@rotorua.govt.nz](mailto:RMACCompliance@rotorua.govt.nz)) in relation to the completion and monitoring of the conditions of this consent. The consent holder will be charged for the administration, monitoring and supervision of this resource consent. Notwithstanding the above, where there is good and reasonable cause for unprogrammed monitoring and additional site inspections, the costs of that will be a charge on the consent holder. Such costs are recovered on an actual and reasonable basis as defined in the General Conditions and Notes of the Fees and Charges Schedule as approved by the Council in terms of Section 36 of the Resource Management Act 1991.

**ADVICE NOTES:**

**Building Act**

- This is not a Building Consent. The Building Act 2004 contains provisions relating to the construction, alteration, and demolition of buildings. The Act requires building consents to be obtained where relevant, and for all such work to comply with the building code.
- Under the Building Act (Section 114), a building owner must give written notice to the territorial authority if they plan to change the use of a building. The consent holder should seek an independent report from a suitably qualified person addressing the potential change of use of the building as described in the Building Act and Building (Specified Systems, Change the Use, and Earthquake-prone Buildings) Regulations 2005, and provide written notice to Council as appropriate.

**Waste Management**

- Waste management is addressed under the Council's Solid Waste Bylaw 2016. The bylaw has a general requirement for a waste management and minimisation plan to be prepared for multi-unit developments: 'Collection from Multi Unit Developments' (See Subpart 6 – Clause 20).

**Right of Objection**

- If you are dissatisfied with any aspect of the decision, you have a right of objection to Council under section 357A of the Resource Management Act 1991. Please advise Council in writing stating the reasons for the objection and the preferred outcome within 15 working days of receiving this decision. If no objection is received it will be assumed that the applicant accepts this decision. In addition, there is a right of appeal to the Environment Court under section 120 of the Resource Management Act 1991.

**Monitoring of Conditions**

5. Fulfilment of the conditions of this consent within the timeframe specified in the consent is necessary to carry out the proposal for which this consent relates. Your progress towards satisfying the conditions of consent will be monitored by Council's Monitoring and Compliance Officer.

6. Please contact Council's Compliance & Regulatory Team ([RMACCompliance@rotorualc.nz](mailto:RMACCompliance@rotorualc.nz)) in relation to the completion and monitoring of the conditions of this consent. The consent holder will be charged for the administration, monitoring and supervision of this resource consent. Notwithstanding the above, where there is good and reasonable cause for unprogrammed monitoring and additional site inspections, the costs of that will be a charge on the consent holder. Such costs are recovered on an actual and reasonable basis as defined in the General Conditions and Notes of the Fees and Charges Schedule as approved by the Council in terms of Section 36 of the Resource Management Act 1991.

**Building Act**

1. This is not a Building Consent. The Building Act 2004 contains provisions relating to the construction, alteration, and demolition of buildings. The Act requires building consents to be obtained where relevant, and for all such work to comply with the building code.
2. Under the Building Act (Section 114), a building owner must give written notice to the territorial authority if they plan to change the use of a building. The consent holder should seek an independent report from a suitably qualified person addressing the potential change of use of the building as described in the Building Act and Building (Specified Systems, Change the Use, and Earthquake-prone Buildings) Regulations 2005, and provide written notice to Council as appropriate.

**Waste Management**

3. Waste management is addressed under the Council's Solid Waste Bylaw 2016. The bylaw has a general requirement for a waste management and minimisation plan to be prepared for multi-unit developments: 'Collection from Multi Unit Developments' (See Subpart 6 – Clause 20).

**Right of Objection**

4. If you are dissatisfied with any aspect of the decision, you have a right of objection to Council under section 357A of the Resource Management Act 1991. Please advise Council in writing stating the reasons for the objection and the preferred outcome within 15 working days of receiving this decision. If no objection is received it will be assumed that the applicant accepts this decision. In addition, there is a right of appeal to the Environment Court under section 120 of the Resource Management Act 1991.

**Monitoring of Conditions**

5. Fulfillment of the conditions of this consent within the timeframe specified in the consent is necessary to carry out the proposal for which this consent relates. Your progress towards satisfying the conditions of consent will be monitored by Council's Monitoring and Compliance Officer.
6. Please contact Council's Compliance & Regulatory Team ([RMACCompliance@rotorualc.nz](mailto:RMACCompliance@rotorualc.nz)) in relation to the completion and monitoring of the conditions of this consent. The consent holder will be charged for the administration, monitoring and supervision of this resource consent. Notwithstanding the above, where there is good and reasonable cause for unprogrammed monitoring and additional site inspections, the costs of that will be a charge on the consent holder. Such costs are recovered on an actual and reasonable basis as defined in the General Conditions and Notes of the Fees and Charges Schedule as approved by the Council in terms of Section 36 of the Resource Management Act 1991.

**Augier Conditions**

**ADVICE NOTES:**

**Building Act**

- This is not a Building Consent. The Building Act 2004 contains provisions relating to the construction, alteration, and demolition of buildings. The Act requires building consents to be obtained where relevant, and for all such work to comply with the building code.
- Under the Building Act (Section 114), a building owner must give written notice to the territorial authority if they plan to change the use of a building. The consent holder should seek an independent report from a suitably qualified person addressing the potential change of use of the building as described in the Building Act and Building (Specified Systems, Change the Use, and Earthquake-prone Buildings) Regulations 2005, and provide written notice to Council as appropriate.

**Waste Management**

- Waste management is addressed under the Council's Solid Waste Bylaw 2016. The bylaw has a general requirement for a waste management and minimisation plan to be prepared for multi-unit developments: 'Collection from Multi Unit Developments' (See Subpart 6 – Clause 20).

**Right of Objection**

- If you are dissatisfied with any aspect of the decision, you have a right of objection to Council under section 357A of the Resource Management Act 1991. Please advise Council in writing stating the reasons for the objection and the preferred outcome within 15 working days of receiving this decision. If no objection is received it will be assumed that the applicant accepts this decision. In addition, there is a right of appeal to the Environment Court under section 120 of the Resource Management Act 1991.

**Monitoring of Conditions**

- Fulfillment of the conditions of this consent within the timeframe specified in the consent is necessary to carry out the proposal for which this consent relates. Your progress towards satisfying the conditions of consent will be monitored by Council's Monitoring and Compliance Officer.
- Please contact Council's Compliance & Regulatory Team ([RMACCompliance@rotorualc.nz](mailto:RMACCompliance@rotorualc.nz)) in relation to the completion and monitoring of the conditions of this consent. The consent holder will be charged for the administration, monitoring and supervision of this resource consent. Notwithstanding the above, where there is

good and reasonable cause for unprogrammed monitoring and additional site inspections, the costs of that will be a charge on the consent holder. Such costs are recovered on an actual and reasonable basis as defined in the General Conditions and Notes of the Fees and Charges Schedule as approved by the Council in terms of Section 36 of the Resource Management Act 1991.

**ADVICE NOTES:**

**Building Act**

1. This is not a Building Consent. The Building Act 2004 contains provisions relating to the construction, alteration, and demolition of buildings. The Act requires building consents to be obtained where relevant, and for all such work to comply with the building code.
2. Under the Building Act (Section 114), a building owner must give written notice to the territorial authority if they plan to change the use of a building. The consent holder should seek an independent report from a suitably qualified person addressing the potential change of use of the building as described in the Building Act and Building (Specified Systems, Change the Use, and Earthquake-prone Buildings) Regulations 2005, and provide written notice to Council as appropriate.

**Waste Management**

3. Waste management is addressed under the Council's Solid Waste Bylaw 2016. The bylaw has a general requirement for a waste management and minimisation plan to be prepared for multi-unit developments: 'Collection from Multi Unit Developments' (See Subpart 6 – Clause 20).

**Right of Objection**

4. If you are dissatisfied with any aspect of the decision, you have a right of objection to Council under section 357A of the Resource Management Act 1991. Please advise Council in writing stating the reasons for the objection and the preferred outcome within 15 working days of receiving this decision. If no objection is received it will be assumed that the applicant accepts this decision. In addition, there is a right of appeal to the Environment Court under section 120 of the Resource Management Act 1991.

**Monitoring of Conditions**

5. Fulfilment of the conditions of this consent within the timeframe specified in the consent is necessary to carry out the proposal for which this consent relates. Your progress towards satisfying the conditions of consent will be monitored by Council's Monitoring and Compliance Officer.
6. Please contact Council's Compliance & Regulatory Team ([RMACCompliance@rotorualc.nz](mailto:RMACCompliance@rotorualc.nz)) in relation to the completion and monitoring of this consent. The consent holder will be charged for the administration, monitoring and supervision of this resource consent. Notwithstanding the above, where there is good and reasonable cause for unprogrammed monitoring and additional site inspections, the costs of that will be a charge on the consent holder. Such costs are recovered on an actual and reasonable basis as defined in the General Conditions and Notes of the Fees and Charges Schedule as approved by the Council in terms of Section 36 of the Resource Management Act 1991.

**ADVICE NOTES:**

**Building Act**

1. This is not a Building Consent. The Building Act 2004 contains provisions relating to the construction, alteration, and demolition of buildings. The Act requires building consents to be obtained where relevant, and for all such work to comply with the building code.
2. Under the Building Act (Section 114), a building owner must give written notice to the territorial authority if they plan to change the use of a building. The consent holder should seek an independent report from a suitably qualified person addressing the potential change of use of the building as described in the Building Act and Building (Specified Systems, Change the Use, and Earthquake-prone Buildings) Regulations 2005, and provide written notice to Council as appropriate.

**Waste Management**

3. Waste management is addressed under the Council's Solid Waste Bylaw 2016. The bylaw has a general requirement for a waste management and minimisation plan to be prepared for multi-unit developments: 'Collection from Multi Unit Developments' (See Subpart 6 – Clause 20).

**Right of Objection**

4. If you are dissatisfied with any aspect of the decision, you have a right of objection to Council under section 357A of the Resource Management Act 1991. Please advise Council in writing stating the reasons for the objection and the preferred outcome within 15 working days of receiving this decision. If no objection is received it will be assumed that the applicant accepts this decision. In addition, there is a right of appeal to the Environment Court under section 120 of the Resource Management Act 1991.

**Monitoring of Conditions**

5. Fulfilment of the conditions of this consent within the timeframe specified in the consent is necessary to carry out the proposal for which this consent relates. Your progress towards satisfying the conditions of consent will be monitored by Council's Monitoring and Compliance Officer.
6. Please contact Council's Compliance & Regulatory Team ([RMACCompliance@rotorualc.nz](mailto:RMACCompliance@rotorualc.nz)) in relation to the completion and monitoring of the conditions of this consent. The consent holder will be charged for the administration, monitoring and supervision of this resource consent. Notwithstanding the above, where there is good and reasonable cause for unprogrammed monitoring and additional site inspections, the costs of that will be a charge on the consent holder. Such costs are recovered on an actual and reasonable basis as defined in the General Conditions and Notes of the Fees and Charges Schedule as approved by the Council in terms of Section 36 of the Resource Management Act 1991.

**ADVICE NOTES:**

**Building Act**

1. This is not a Building Consent. The Building Act 2004 contains provisions relating to the construction, alteration, and demolition of buildings. The Act requires building consents to be obtained where relevant, and for all such work to comply with the building code.
2. Under the Building Act (Section 114), a building owner must give written notice to the territorial authority if they plan to change the use of a building. The consent holder should seek an independent report from a suitably qualified person addressing the potential change of use of the building as described in the Building Act and Building (Specified Systems, Change the Use, and Earthquake-prone Buildings) Regulations 2005, and provide written notice to Council as appropriate.

**Waste Management**

3. Waste management is addressed under the Council's Solid Waste Bylaw 2016. The bylaw has a general requirement for a waste management and minimisation plan to be prepared for multi-unit developments: 'Collection from Multi Unit Developments' (See Subpart 6 – Clause 20).

**Right of Objection**

4. If you are dissatisfied with any aspect of the decision, you have a right of objection to Council under section 357A of the Resource Management Act 1991. Please advise Council in writing stating the reasons for the objection and the preferred outcome within 15 working days of receiving this decision. If no objection is received it will be assumed that the applicant accepts this decision. In addition, there is a right of appeal to the Environment Court under section 120 of the Resource Management Act 1991.

**Monitoring of Conditions**

5. Fulfilment of the conditions of this consent within the timeframe specified in the consent is necessary to carry out the proposal for which this consent relates. Your progress towards satisfying the conditions of consent will be monitored by Council's Monitoring and Compliance Officer.
6. Please contact Council's Compliance & Regulatory Team ([RMACCompliance@rotorualc.nz](mailto:RMACCompliance@rotorualc.nz)) in relation to the completion and monitoring of the conditions of this consent. The consent holder will be charged for the administration, monitoring and supervision of this resource consent. Notwithstanding the above, where there is good and reasonable cause for unprogrammed monitoring and additional site inspections, the costs of that will be a charge on the consent holder. Such costs are recovered on an actual and reasonable basis as defined in the General Conditions and Notes of the Fees and Charges Schedule as approved by the Council in terms of Section 36 of the Resource Management Act 1991.
