Hi

Re: RC17647 - Lake Rotorua Motel

Yesterday afternoon my 14 year old son was walking in front of the above named emergency housing accommodation. While passing, a fully tattooed and patched Blackpower member drove in to the accommodation's driveway, wound down his window and asked him for a fight.

Understandably, my wife and I are disgusted by this as at no time should any member of the public be harrassed and intimidated by a gang member, let alone a child. The fact this occurred outside an emergency housing provider, consented by the council and contracted by MHUD is absolutely disgusting and also implies further on going events of this nature. This occasion has left my son feeling very uneasy about being in this area by himself.

I hope this is followed up appropriately with both MHUD and the contracted provider as no body in Rotorua should feel intimidated by criminals while simply walking to the bus stop, especially when the providers have a duty of care to both their residents and the public.
