2.22.1 The objectives of this bylaw ~~are~~is to ~~contribute to reduce waste and waste-related harm in the Rotorua District through;~~

- (a) ~~the~~the promotion and delivery of effective and efficient waste management and minimisation in Rotorua;
- (b) ~~the~~the implementation of the Council's waste management and minimisation plan;
- (c) ~~the purpose of the alignment with the goals and intent of the~~ Waste Minimisation Act 2008 and ~~the goals in the~~New Zealand Waste Strategy;
- (d) ~~the~~the regulation of the collection and disposal of waste from public places ~~or by persons licensed by the Council~~
- (e) ~~the~~the protection of the health and safety of waste collectors, waste operators and the public;
- (f) the management of litter and nuisance in public places.

Commencement

- 3.0 Subject to subsections 3.2, 3.3, 3.4 and 3.5, this bylaw comes into force on 31 October 2016
- 3.0 Clause 11.1 comes into force on 1 July 2018
- 3.0 Subject 3 of part 3 (disposal of waste and recovery of resources) comes into force on 1 July 2018
- 3.0 Subject 6 of part 3 (multi-unit developments) comes into force on 1 July 2018
- 3.0 Subject 7 of part 3 (events) comes into force on 1 July 2017

4.3 Interpretation

4.43.1 In this bylaw, unless inconsistent with the context:

Act means the Waste Minimisation Act 2008.

**Approved containerreceptacle** means any containerreceptacle approved by the Council for the collection of any type of domestic or commercial waste from a public place, with approval criteria based on the prevention of nuisance and the protection of the health and safety of waste collectors and the public.

**Clean fill material** means virgin excavated natural materials (VENM) such as clay, soil and rock that are free of:

- (a) combustible, putrescible, degradable or leachable components;
- (b) hazardous substances or materials (such as municipal solid waste) likely to create leachate by means of biological breakdown;
- (c) products or materials derived from hazardous waste treatment, stabilisation or disposal practices;
- (d) ~~—~~materials such as medical and veterinary waste, asbestos, or radioactive substances that may present a risk to human health if excavated;
- (e) contaminated soil and other contaminated materials; and
- (f) liquid waste~~:-~~

and when discharged to the environment, will not have a detectable effect relative to the background.

**Clean fill site** means the land used for the disposal of clean fill material.

**Commercial waste** means waste that results from a commercial enterprise and includes waste generated by the carrying on of any business, manufacture, process, trade, market, or other undertaking.

**Construction and demolition waste** means waste generated from any building construction or demolition works; and includes any concrete, plasterboard, wood, steel, brick, cardboard, metals, plastic or glass.

**Council** means the Rotorua District Council (operating as Rotorua Lakes Council) or any person delegated or authorised to act on its behalf.

**Council collection points** mean places or containerreceptacles in locations determined by Council Officers, such as high density areas or rural areas, where approved containerreceptacles may be left for collection or waste may be deposited if collection from a public place is unfeasible or impractical.

**Cover material** means material specified by the Council under clause 1719 as suitable for use as cover material at a landfill site, managed fill site, clean fill site or mono-fill site, as the case may be.

**Deposit** means to cast, place, throw or drop any waste or diverted material.

**Disposal** has the meaning given by the Waste Minimisation Act 2008.

**Diverted material** has the meaning given by the Waste Minimisation Act 2008.

**Domestic waste** means waste consisting of refuse, recyclable material or organic matter (food waste and/or greenwaste) originating from any household or from the cafeteria, lunchroom or canteen of any commercial enterprise.

**Event** means any organised temporary activity of significant scale that is likely to create litter in a public place including an organised gathering, open-air market, parade, protest, festival, film shoot, concert or celebration.

Formatted: Space Before: 0 pt, Line spacing: Multiple 1.16 li

Formatted: Font: 10.5 pt, Bold

Formatted: Not Highlight

**Food waste** means domestic waste that is derived from any item of food and is organic in origin and includes fruit and vegetable scraps, meat, fish and bone discards, and any other similar food waste.

**Green waste** means waste that is organic in origin and that results from domestic gardening activities or arboricultural business activities and includes lawn clippings and plant material.

**Hazardous waste** means waste that:

- (a) contains hazardous substances at sufficient concentrations to exceed the minimum degrees of hazard specified by Hazardous Substances (~~Minimum Degrees of Hazard~~)~~Health and Safety Reform Revocations~~ Regulations ~~2000-2017~~~~01~~ under the Hazardous Substances and New Organism Act 1996; or
- (b) meets the definition for infectious substances included in the Land Transport Rule: Dangerous Goods ~~1999-2005~~ and NZ Standard 5433: 1999 - Transport of Dangerous Goods on Land; or
- (c) meets the definition for radioactive material included in the Radiation ~~Protection Safety~~ Act ~~1965-2016~~~~and Regulations 1982~~; but
- (d) does not include domestic waste, inorganic material, construction and demolition waste or commercial waste.

**Home composting** means the activity of creating decaying organic matter from domestic green waste and/or food waste into compost.

**Inorganic material** means waste consisting of household equipment, furniture, appliances and material of a similar type that due to its nature or size cannot be collected as domestic waste in an approved ~~container~~~~receptacle~~, and that is specified by the Council as suitable for delivery to a resource recovery facility.

**Landfill site** means land used for the disposal of waste by burying it, or placing it upon land or other waste.

**Licence** means a licence, consent, permit or approval to do something under this bylaw and includes any conditions to which the licence is subject.

**Litter** means any refuse, rubbish, animal remains, glass, metal, garbage, debris, dirt, filth, rubble, ballast, stones, earth or waste matter, or any other thing of a like nature.

**Litter receptacle** means a receptacle provided for the collection of refuse, recyclable material or organic matter.

**Managed fill site** means land used for the disposal of soil with low levels of contamination.

**Manager** means a person who controls or manages any premises, activity, or event, regardless of whether that person has a proprietary interest in those premises or that activity or event.

**Mono-fill site** means land used for the disposal or storage of waste of a category specified by the Council and that originates from a specified source or location.

**Multi-unit development** means a development consisting of 10 or more residential or residential and commercial units on any premises. It includes a unit title development and any development with controlled or restricted access.

**Natural hardfill material** means materials specified by the Council as suitable for use as natural hardfill material at a clean fill site.

**Formatted:** Font color: Custom Color(RGB(52,52,52)), Character scale: 105%

**Formatted:** Right: 1.78 cm, Space Before: 0 pt, Line spacing: Multiple 1.17 li

**Nuisance** has the meaning given by the Health Act 1956.

**Occupier**, in relation to any property or premises, means the inhabitant occupier of that property or premises.

**Organic matter** means food waste and/or green waste that is specified by the Council under clause 17.49 as organic matter.

Formatted: Not Highlight

**Other hardfill material** means materials other than natural hardfill material specified by the Council under clause 17.49 as suitable for use as hardfill material at a clean fill site. Typically, this could include clean, inert construction and demolition material, such as: uncontaminated concrete, bricks, and ceramics (e.g. tiles).

Formatted: Not Highlight

**Owner** in relation to any property or premises, means the person entitled to receive the rack rent of the property or premises, or who would be so entitled if the property or premises were let to a tenant at a rack rent.

**Person** includes an individual, a corporation sole, a body corporate, and an unincorporated body.

**Premises** means any separately occupied land, building, or part of the same.

**Prohibited waste** means waste containing:-

Formatted: Font: 10.5 pt, Bold

- (a) any material capable of causing injury to any person or animal unless the material is sufficiently contained to prevent injury;
- (b) any material capable of causing damage to the approved container/receptacle or likely to shatter in the course of collection unless the material is sufficiently contained to prevent damage to the approved container/receptacle or to prevent injury;
- (c) any material that may endanger any person, animal or vehicle which may come in to contact with it prior to, during or following collection, transportation or disposal;
- (d) any used oil, liquid or any viscous fluid;
- (e) any radioactive wastes, but excluding domestic smoke detectors;
- (f) any hot ash or lead-acid batteries;
- (g) any hazardous waste;
- (h) medical waste and;
- (i) any material prohibited by the Council under clause 17.49.

Formatted: Not Highlight

**Public place** means

- (a) a place that is:-
  - (i) under the control of the Council and/or
  - (ii) that is open to or being used by the public, whether or not there is a charge for admission and
- (b) includes:
  - (i) a road, whether or not the road is under the control of the Council, and
  - (ii) any part of the public place.

**Recyclable material** means waste specified by the Council under clause 17.49 as suitable for recycling. It does not include other forms of diverted material.

Formatted: Not Highlight

**Recycling** means the reprocessing of waste to produce new materials.

**Refuse** means waste which:

- (a) subject to (b), excludes ~~is not~~ organic matter, recyclable material, prohibited waste, construction and demolition waste or inorganic material;
- (b) ~~may include organic matter and/or recyclable material that does not exceed the maximum allowable limits specified by the Council under clause 19 of this bylaw. may include small amounts of organic matter and/or recyclable materials, provided that all practical and reasonable steps have been taken to remove, recover, or divert any materials that can be recycled, reused, or otherwise processed into a usable resource~~

**Resource recovery facility** means any facility that receives, collects, sorts, stores or processes waste to ensure waste minimisation and includes a commercial composting operation, a recovery operation, a materials recovery facility, a transfer station and a recycling depot.

**Rotorua** has the meaning given by the Local Government [Act](#) 2002 and the Local Government (Bay of Plenty Region) Reorganisation Order 1989, *Gazette* 1989, p 2275.

**Waste** has the meaning given by the Waste Minimisation Act 2008. It does not include diverted material.

**Waste collector** means any person who collects or transports waste and includes commercial and non-commercial collectors and transporters of waste.

**Waste operator** means a person who owns or manages a landfill site, clean fill site, managed fill site, mono-fill site or a resource recovery facility.

**Waste management and minimisation plan** means the waste management and minimisation plan adopted by the Council under section 43 of the Act.

[4.23.2](#) Unless the context requires another meaning, a term or expression that is defined in the Act and used, but not defined, in this bylaw has the meaning given by the Act.

[4.2](#) Explanatory notes and attachments are for information purposes only and do not form part of this bylaw.

[4.2](#) The Interpretation Act 1999 applies to this bylaw.

**Part 2 - General**

**4 Compliance with bylaw**

[4.1](#) ~~No person may deposit, collect, transport, sort, store, process or dispose of waste other than in accordance with this bylaw.~~

[4.2](#) ~~To avoid doubt, compliance with this bylaw does not remove the need to comply with all other applicable Acts, regulations, bylaws, and rules of law.~~

**5 Controls specified under the bylaw**

[5.1](#) Any control specified by the Council under clause 14, 17, and 19:

[\(a\)](#) ~~must, after consultation pursuant to the Local Government Act 2002, be made by a Council resolution; and~~

[\(b\)](#) ~~may:~~

[\(i\)](#) ~~prohibit, restrict or control any matter or thing generally, for any specific category of waste, or in a particular case;~~

[\(ii\)](#) ~~apply to all waste or to any specified category of waste;~~

[\(iii\)](#) ~~apply to Rotorua or to a specified part of Rotorua;~~

[\(iv\)](#) ~~apply at all times or at any specified period of time.~~

## Subpart 1\_ Separation and deposit of domestic waste for kerbside collection and use of approved containerreceptacles

### 76 Use of approved containerreceptacles for domestic waste collection from a public place

7.46.1 The Council may approve the type, size and construction of containerreceptacles for the collection of domestic waste from a public place.

7.26.2 The occupier, owner and/or the manager of any premises must ensure that the domestic waste from the premises is separated into refuse and other streams of material for recovery, recycling or reuse recyclable material and deposited for collection in the correct approved containerreceptacle.

7.36.3 No person may deposit in the approved containerreceptacles, material that is not approved for the approved that containerreceptacle.

### 87 Deposit or removal of domestic waste

8.1 Only domestic waste that can be placed in an approved containerreceptacle on a public place for kerbside collection includes:

7.1

8.2 domestic waste:

green waste:

7.2 Prohibited waste, diverted material, construction and demolition waste or commercial waste may not be placed in a public place for kerbside collection unless authorised by the Council under this bylaw.

8.37.3 No person may put waste into an approved containerreceptacle provided to any other person, without that other person's consent.

8.47.4 No person may remove waste from, or interfere with any waste deposited in, an approved containerreceptacle, except the Council, a licensed waste collector or the person who deposited the waste.

8.57.5 Except with the prior written approval of the Council, no person may remove a containerreceptacle provided by the Council from the premises to which it has been allocated.

8.6 The occupier, owner and/or the manager of any premises is responsible for any and all waste generated on the premises until it has been collected or disposed of at a consented facility.

### 98 Responsibilities of occupiers, owners and/or managers

8.1 The occupier and/or the manager of a premises must ensure that domestic waste from the premises is separated into waste types as determined by the Council and is deposited for collection in the correct approved receptacle.

9.18.2 The occupier, owner and/or the manager of any premises must ensure that:

(a) 9.1.1 reasonable steps are taken to prevent the waste from escaping from any waste containerreceptacle;

9.1.1(b) there are minimal adverse effects of waste on surrounding occupiers;

9.1.1(c) any waste containerreceptacle is regularly emptied when it is full;

9.1.1(d) the contents of any waste containerreceptacle, excluding containers for green waste, are protected from adverse weather, wind and rain, or ingress or egress of flies and animals.

9.28.3 In addition, the occupier, owner and/or the manager of any premises who is in control of an approved containerreceptacle must ensure that:

9.2.1(a) the containerreceptacle is kept in a safe location, hygienic, in good repair, and without any modifications or alterations to its function appearance;

9.2.2(b) waste is deposited in the containerreceptacle in a manner that allows the whole of the contents to fall out easily and cleanly when the containerreceptacle is emptied;

Formatted

Formatted

9.2.3 unless the containerreceptacle is placed at a council collection point, the containerreceptacle (c) is placed for collection in an upright position off the roadway, in front of the premises from which the waste originated and as close to the kerbside as possiblepractical;

9.2.4(d) reasonable steps are taken to prevent the containerreceptacle disrupting or obstructing pedestrian and vehicular traffic and to preserve access to the premises;

the containerreceptacle is placed for the collection of waste and retrieved in (e) accordance with any applicable control specified by the Council.

9.38.4 If an occupier, owner and/or the manager of any premises has taken all reasonable and practicable steps to comply with Cclauses 9.1 to 9.3and 9.2, the occupier, owner and/or the manager of any premises will not be in breach of the bylaw should any of the conditions contained in Cclauses 9.1 to 9.3 and 9.2 fail to be met.

#### 409 Deposit of waste atDetermination of council collection points

40.19.1 The Council may specify:

40.1.4(a) any place, or receptacle in a public place as a council collection point for the collection of domestic waste

40.1.2(b) controls relating to the deposit of waste at the council collection point including the use of specified containerreceptacles, subject to clause 69.;

40.29.2 No person may deposit waste at a council collection point other than in accordance with any applicable control.

### Subpart 2 - Separation and deposit of commercial waste for collection and use of approved containerreceptacles

#### 10 Use of approved containerreceptacles for commercial waste collection from a public place

4.2 The Council may approve the type, size and construction of containerreceptacles for the collection of commercial waste from a public place.

##### 10.1

10.2 The occupier, owner and/or the manager of any premises must ensure that the commercial waste from the premises is separated into refuse and other streams of material for recovery, recycling or reuse and deposited for collection in the correct approved containerreceptacle.

10.3 No person may deposit in the approved containerreceptacles, material that is not approved for that containerreceptacle.

#### 11 Deposit or removal of commercial waste

11.1 Only commercial wWaste that can be placed in an approved containerreceptacle on a public place for commercial waste collection includes:

11.2 Prohibited waste, diverted material, construction and demolition waste or other commercial waste may not be placed in a public place for collection unless authorised by the Council under this bylaw.

4.2 No person may put waste into an approved containerreceptacle provided to any other business, without the consent of that business.

##### 11.3

4.2 No person may remove waste from, or interfere with any waste deposited in, an approved containerreceptacle, except the Council, a licensed waste collector or the business who deposited the waste.

##### 11.4

11.5 The occupier, owner and/or the manager of any premises is responsible for any and all waste generated on the premises until it has been collected or disposed of at a consented facility.

## 12 Responsibilities of occupiers, owners and/or managers

12.1 The occupier, owner and/or the manager of any premises must ensure that:

10.5.1(a) reasonable steps are taken to prevent the waste from escaping from any waste container/receptacle;

(b) there are minimal adverse effects of waste on surrounding occupiers;

(c) any waste container/receptacle is regularly emptied when it is full;

(d) the contents of any waste container/receptacle are protected from adverse weather, wind and rain, or ingress or egress of flies and animals.;

12.2 In addition, the occupier, owner and/or the manager of any premises who is in control of an approved container/receptacle must ensure that:

10.5.2(a) the container/receptacle is kept in a safe location, hygienic, in good repair, and without any modifications or alterations to its function;

10.5.3(b) waste is deposited in the container/receptacle in a manner that allows the whole of the contents to fall out easily and cleanly when the container/receptacle is emptied;

(c) the container/receptacle is placed for collection in an upright position off the roadway, in front of the premises from which the waste originated and as close to the collection point as practical;

(d) reasonable steps are taken to prevent the container/receptacle disrupting or obstructing pedestrian and vehicular traffic and to preserve access to the premises;

(e) the container/receptacle is placed for the collection of waste and retrieved in accordance with any applicable control specified by the Council.

12.3 If an occupier, owner and/or the manager of any premises has taken all reasonable and practicable steps to comply with clauses 13.1 and 13.2, the occupier, owner and/or the manager of any premises will not be in breach of the bylaw should any of the conditions contained in clauses 13.1 and 13.2 fail to be met.

## Subpart 3-2- Collection and transportation of waste

### 11 Licensing of the collection or transportation of waste

12.0 Subject to subclause 14.1.2, any person who collects or transports waste and/or diverted material from or to land in Rotorua must obtain a licence to do so from the Council.

13.0 A licence is not required under subclause 14.1.1 if the total amount of waste collected by that person in a 12 month period does not exceed 20 tonnes.

### 14.13 Deposit at and collection of waste from a public place

14.13.1 Waste that can be placed in an approved container on a public place for collection includes:

14.2.0(i) domestic waste;

14.3.0(i) green waste;

14.43.1 Prohibited waste, diverted material, construction and demolition waste or commercial waste may not be placed in a public place for collection unless authorised by the Council under this bylaw.

14.513.1 Any waste collector who collects or transports domestic waste from a public place must:

14.5.1(a) make available to the occupier, or owner, or manager of any premises one or more approved container/receptacles to enable any refuse or recyclable material from the premises to be collected separately;

14.5.2(b) not collect or dispose of at a landfill site any domestic waste which has not been separated into refuse, recyclable material and organic matter, unless the amount of recyclable material and/or organic matter mixed with the refuse, or the amount of the recyclable material mixed with the organic matter or vice versa, does not exceed the maximum allowable limits specified by the Council under clause 19 only collect or dispose of at a landfill site any waste where the recyclable and other recoverable material and organic matter has reasonably

been removed leaving only refuse waste.  
44.5.3(c) not dispose to, at a landfill site, managed fill site, mono-fill site or clean fill site any recyclable material, material, or organic waste, or other recoverable material that is capable of being reused or recycled.

#### 45.14 Controls for the use of a public place for collection of waste

- 45.1.14.1 The Council may specify controls for the following matters in relation to the collection or transportation of waste from a public place:
- 45.1.1(a) the area to which the control applies;
  - 45.1.2(b) the type, size and construction of approved container/receptacles that may be used for the storage and collection of refuse and recyclable materials;
  - 45.1.3(c) the categories of recyclable material and refuse that may be deposited at or collected from a public place;
  - 45.1.4(d) the conditions applicable to any collection service from a public place, including the placement and retrieval of approved container/receptacles for collection, collection times and restrictions on the number and weight of approved container/receptacles;
  - 45.1.5(e) requirements to ensure the correct separation of refuse and recyclable materials into approved container/receptacles;
  - 45.1.6(f) the locations, access times and conditions of use of Council waste collection points;
  - 45.1.7(g) any other operational matter required for the safe and efficient operation of a collection service from a public place.
- 45.2.14.2 Any person providing or using a waste collection service in or from a public place must comply with all controls made by the Council relating to that collection.

### Subpart 4 - Licensing waste collection and waste management facility operators

#### 15 Licensing of waste collection

- 15.1 The Council may introduce a waste operator licensing system. The scope and details of this licensing system will be publicly notified and confirmed following a consultation process that is carried out in accordance with the special consultative procedure of the Local Government Act 2002.

### Subpart 5.4.3 - Disposal of waste and recovery of resources

#### 16 Disposal or discarding of material on land, burial or composting of waste on land

- 16.1 In limited circumstances, Waste must be disposed of on land in accordance with this bylaw.
- 16.2.16.1 This clause Clause 17.1 does not apply to the disposal of a person may dispose of or discard waste on premises that person occupies or owns -
- 16.2.1(a) on the land, if the clean fill material is of less than 30 cubic metres, or such greater amount as the Council may approve, of clean fill material measured over any continuous 12 month period;
  - 16.2.2 by burial or composting if the of waste that in the opinion of the Council is not likely to contain a significant level of recyclable recoverable material that may be recovered in a cost effective manner;
  - 16.2.3(b) of waste is for home composting, and;
  - 16.2.4 by burial if the waste is a of dead companion animals and nuisance pests or;
  - 16.2.5(c) is a of dead farm animals in rural areas.

18.1 Any person who operates a resource recovery facility, landfill site, clean fill site, managed fill site or mono-fill site must obtain a licence to do so from the Council.

Clause 18.1 does not apply to land used for the disposal of clean fill material where such disposal:

18.2.0 is of clean fill material sourced directly from that land; or

18.2.0 consists solely of:

(i) hardfill that is natural or uncontaminated or cover material, or both; or

(ii) not more than 30 cubic metres, or such greater amount as the Council may approve, of other hardfill material specified pursuant to clause 19, measured over any continuous 12-month period.

18.2 The Council may grant a licence:

18.2.0 in the case of a landfill site, for the receipt, processing and disposal of any waste of a category specified by the Council;

18.2.0 in the case of a clean fill site, for the disposal of clean fill material;

18.2.0 in the case of a managed fill site, for the disposal of contaminated soil on the land;

18.2.0 in the case of a mono-fill site, for the disposal or storage of waste of a category specified by the Council and that originates from a specified single source or location, in or on specified land.

18.2 The holder of a licence under this clause must comply with the conditions of the licence.

Subpart 46—Licensing process and conditions

18 Application for licence

18.2 Applications for licences must be made in the prescribed form, describe the activities in respect of which the licence is sought and be accompanied by payment of the application and processing fees and such further supporting information as the Council may require to enable processing of the application.

18.2 The holder of an existing licence may apply to the Council for a renewal of that licence.

18.2 Licences may be granted or refused at the discretion of the Council, upon such terms and conditions as the Council thinks fit.

18.2 A licence is personal to the holder and is not transferable.

18 Consideration of application for licence

18.2 When considering an application for a licence and the conditions to be imposed under it, the Council may take into account matters relating to the suitability of the applicant to hold a licence including but not limited to the following:

18.2.0 the extent to which the licensed activities will promote public health and safety and achievement of the Council's waste management and minimisation plan and waste reduction initiatives;

18.2.0 the applicant's experience, reputation and track record in the waste industry, including any known past operational issues which may affect, or may in the future affect, the applicant's performance;

18.2.0 the type of waste and/or diverted material to be collected or transported;

18.2.0 the manner of treatment (if any) and disposal of the waste type, and the identity of the resource recovery facility, landfill site, managed fill site, mono-fill site or clean fill site at which it is proposed that treatment or disposal will occur;

18.2.0 the terms and conditions under which such disposal of waste is permitted and the existence of or need for any statutory approvals, authorisations or consents required to be held or complied with in respect of such disposal;

18.2.0 the frequency and location of the waste collection, transportation or disposal services;

18.2.0 the specifications of the vehicles, equipment and approved containers to be used for the collection, transportation or disposal of waste.

- 18.3 The terms and conditions upon which a licence may be granted include, but are not limited to the following:
- term — a licence may be granted for a term of up to five years;
  - 18.3.1 licence fee — the licensee must pay an annual licence fee in an amount determined by the Council from time to time;
  - 18.3.1 bond — the Council may from time to time and on a case by case basis require a licence holder to post a bank guaranteed bond;
  - 18.3.1 compliance with standards — the licence holder must comply with the Council's standards and policies for waste collection, transportation or disposal services including, in respect of collection services:
  - (-) the collection of any litter within five metres of an approved container awaiting collection and any litter spillage from the licence holder's vehicle during the collection, transportation or disposal process;
  - (-) provision of waste collection services within reasonable times specified by Council;
  - 18.3.1 provision of information — the licence holder must provide waste data and/or diverted material data to the Council during the term of the licence in the form and at the times determined by the Council from time to time including the following data:
  - (-) waste log books for each vehicle operated in accordance with the licence recording the quantity, composition and destination of each waste type and the point in time when such data was recorded during the waste collection, transportation or disposal process;
  - (-) weighbridge receipts;
  - (-) gate records of waste tonnage.
- 18.3 The Council will take all reasonable measures to keep commercially sensitive information confidential including by the aggregation of such information for recording purposes.

**Subpart 65 - Additional controls relating to the collection, transportation and disposal of waste**

Formatted: Font color: Auto

Formatted: Indent: Left: 0 cm

**17 Controls for the collection, transportation and disposal of waste**

**17.1 The Council may specify controls for the following matters in relation to the collection, transportation or disposal of waste:**

- (a) types of domestic waste that may be treated for all purposes (including deposit, collection, transportation and disposal) as recyclable material, organic matter, or refuse;
- (b) maximum allowable limits of recyclable material or organic matter that may be collected or transported from a public place in an approved receptacle for refuse and that subsequently may be disposed of at a landfill site, managed fill site, mono-fill site or clean fill site;
- (c) categories and types of waste that may be received, collected, stored, sorted, processed or disposed of at any landfill site, managed fill site, clean fill site, mono-fill site and material that may be used as cover material at any such site;
- (d) materials that are suitable for use as natural or other hardfill material at a clean fill site;
- (e) types of waste originating from a specified single source or location that may be disposed of at a mono-fill site;
- (f) types of waste that are prohibited.

**18 Controls for the collection, transportation and disposal of waste**

**18.3 The Council may specify controls for the following matters in relation to the collection, transportation or disposal of waste:**

- 18.3.5 types of domestic waste that may be treated for all purposes (including deposit, collection, transportation and disposal) as recyclable material, organic matter, or refuse;
- 18.3.6 maximum allowable limits of recyclable material or organic matter that may be collected or transported from a public place in an approved container for refuse and that subsequently may be disposed of at a landfill site, managed fill site, mono-fill site or clean fill site;
- 18.3.7 categories and types of waste that may be received, collected, stored, sorted, processed or disposed of

at any landfill site, managed fill site, clean fill site, mono-fill site and material that may be used as cover material at any such site;  
18.3.8 materials that are suitable for use as natural or other hardfill material at a clean fill site;  
18.3.9 types of waste originating from a specified single source or location that may be disposed of at a mono-fill site;  
types of waste that are prohibited.

Subpart 677 - Multi-unit developments

1918 Collection from multi-unit developments

- 19.118.1 The owner and manager of a multi-unit development must make provision for the management of all waste generated within the property.
- 19.218.2 The owner and manager of a multi-unit development must obtain approval from the Council for a waste management and minimisation plan for the development unless they comply within clause 18230.5.
- 19.318.3 A waste management and minimisation plan must include but is not limited to:
- 19.3.1(a) identification of an adequate area on the premises for the storage of containerreceptacles that is readily accessible to the occupiers of units and to a licensed waste operator to enable separate collection and transportation of refuse and recyclable material;
  - 19.3.2(b) the methods to be used to minimise noise and odour and to keep the area hygienic, free from vermin or other infestations and protected from theft and vandalism;
  - 19.3.3(c) identification of the means and route of access and egress to the waste storage area;
  - 19.3.4(d) an estimate of the volumes of refuse and recyclable material that will be generated;
  - 19.3.5(e) the steps which will be taken to further the objective of waste minimisation;
  - 19.3.6(f) the contact details for the manager of any multi-unit development.
- 19.418.4 Any person who owns, occupies or manages a multi-unit development must comply with an approved waste management and minimisation plan.
- 19.518.5 The Council may provide a written exemption on application to any person who manages a multi-unit development from full compliance with the requirements of this clause if:
- 19.5.1(a) in the opinion of the Council, the costs of full compliance would be disproportionate to any resulting waste management and minimisation benefits;
  - or
  - 19.5.2(b) the manager or owner demonstrates to the satisfaction of the Council that refuse and recyclable material are separately and regularly collected.

2019 Controls for mMulti-unit developments controls

- 20.119.1 The Council may specify controls for the following matters in relation to the collection or transportation of waste from multi-unit developments:
- 20.1.1(i) the categories of recyclable material and refuse that may be deposited at or collected from a multi-unit development;
  - 20.1.2(ii) the times, locations and conditions applicable to any collection service from a multi-unit development, including the placement and retrieval of containerreceptacles for collection, collection times and restrictions on the number and weight of approved containerreceptacles;
  - 20.1.3(iii) requirements to ensure the correct separation of refuse and recyclable materials into containerreceptacles;
  - 20.1.4(iv) any other operational matter required for the safe and efficient operation of a collection service from a multi-unit development.
- 20.219.2 Any person who manages a multi-unit development or owns or occupies a unit in a multi-unit development must comply with any controls for the deposit, collection, transportation and management of waste in the multi-unit development made by the Council.

Subpart 8-7- Events

2420 Waste Management and Minimisation Plans for events

- 24-20.1 Any organiser of an event must prepare a waste management and minimisation plan for the event.
- 24-220.2 The Council may require a waste management and minimisation plan to set out:
- 24-2.1(a) an estimate of the types and amounts of waste to be generated by the event;
  - 24-2.2(b) how waste generated by the event is to be minimised;
  - 24-2.3(c) the steps which will be undertaken to maximise the collection and use and collection of recyclables and reusable material;
  - 24-2.4(d) the equipment to be provided for the storage, collection and transportation of waste and diverted material;
  - (b) the person responsible for the collection and disposal of waste and the methods to be used; and;
  - (e)
  - 24-2.6(f) a waste analysis following the conclusion of the event.
- 24-320.3 The organiser of an event must comply with the approved waste management and minimisation plan.

Subpart 8-9- Nuisance and litter

2221 Nuisances, litter and dumping of waste

- 22-421.1 No person may:
- 22-4.1(a) allow any accumulation of waste or diverted material on any premises they own, occupy or manage to become offensive, a nuisance or likely to be injurious to health;
  - 22-4.2(b) use an approved container/receptacle in a manner that creates a nuisance, is offensive or is likely to be injurious to health;
- 22-221.2 Except as provided for under this bylaw, no person may:
- 23-2.1 26-2.1 bury or allow to be buried on any property they own, occupy or manage any waste except:
    - (ii) organic waste, including dead farm animals in rural areas;
    - (iii) dead companion animals and nuisance pests;
  - (iv)(a) for the purposes of home composting, 23-2.2 26-2.2 dispose of any waste on any where else other than premises except at:
    - (i) a landfill site, clean fill site, managed fill site, mono-fill site; or
    - (ii) on any premises they own, occupy or manage, for the purposes of home composting, or burying in accordance with clause 16.1;
    - (iii) in a council approved litter receptacle for the depositing of domestic waste or commercial waste, as appropriate and;
    - (iv) public bin provided by Council.

22 Litter and dumping of household waste

- 22-421.3 No person may:-
- (a) deposit any waste arising from that person's household or that person's business activities in any litter receptacle provided by the Council in any public place, including in particular:
    - cooking oil;
    - fish, offal or animal parts;
    - human waste or medical waste; or
    - any other prohibited waste
  - 22-4.2(b) remove any waste from any litter receptacle provided by the Council in any public place, where this results in any waste being deposited outside the receptacle unless authorised by the Council to do so;
  - 22-4.3(c) deposit or attempt to deposit any litter in any receptacle provided by the Council

in any public place if:

- (i) the receptacle is full; or
- (ii) the litter is likely to escape.

22.4.4(d) fix or attach any flag, banner, bunting, balloon, sign, poster, leaflet or similar thing to any litter receptacle provided by the Council in any public place; or  
(e) damage, vandalise, or burn any litter receptacle provided by the Council in any public place.

(f) throw litter from a moving vehicle or otherwise release litter into the environment;  
22.4.5(g) deposit any waste arising from that person's household or that person's business activities on land in any way which is not in accordance with clause 164 of this bylaw.;

22.521.4 The owner, occupier or manager of any premises on which any flag, banner, bunting, balloon, sign, poster, leaflet or similar device is displayed that is likely to become litter, must take all steps to the satisfaction of the Council to prevent it becoming litter and to clean up any litter caused by the display.

## 22 Unaddressed mail

22.722.1 No person may deposit, cause, permit or authorise the deposit of any unaddressed mail, advertising material, community newspapers, clothing donations bags, circulars, leaflets, brochures, samples or flyers in any letterbox which is clearly marked "addressed mail only".

22.822.2 Subclause 22285.1 does not apply to:

22.8.4(a) public notices from government bodies, local authorities or New Zealand Post;

22.8.2(b) election material during the period beginning two months before polling day and ending with the close of the day before polling day.

22.922.3 No person may deposit, cause, permit or authorise the deposit of any advertising material, clothing donations bags, circulars, leaflets, brochures, samples or flyers:

22.9.4(a) in any letterbox which is clearly marked "no circulars", "no junk mail", or words with similar effect;

22.9.2(b) on a vehicle parked in a public place;

22.9.3(c) in a letterbox in unsecured circumstances, if it is likely to escape and become litter.

22.1022.4 Subclause 2285.3 does not apply to:

22.10.4(a) any daily or regular newspaper, community newspaper or magazine;

22.10.2(b) public notices from government bodies, local authorities or New Zealand Post;

22.10.3(c) communications from local community organisations, charities or charitable institutions;

(d) election material during the period beginning two months before polling day and ending with the close of the day before polling day.

## 23 Donation collection points

23.1 Anyone intending to establish a donation collection point must notify the Council in advance and must operate the donation collection point in a manner which ensures no nuisances, litter or dumping of waste.

23.2 All donation collection points must:

(a) remove deposited waste from the collection point;

(b) clean up any litter or illegal dumping; and

(c) clean up or remove any graffiti.

Part4 Enforcement Powers

- 24 Minimising the potential for a shopping trolleys to become waste
- 24.1 A person who is responsible for the operation of a business must –
- (a) clearly display signage on the premises of the business that –
    - (i) prohibits the removal of any shopping trolley from the premises;
    - (ii) provides the contact details of the business;
    - (iii) encourages the public to report the removal or location of any shopping trolley removed from the premises using the contact details of the business
  - (b) retrieve any shopping trolley provided by that business for public use that has been removed from the business's premises –
    - (i) within 24 hours of being notified by council or a person of the location of the shopping trolley;
  - (c) reimburse council for the costs incurred for the retrieval, storing, return and any other necessary work carried out for the collection of a business's shopping trolley by council outside the premise of the business, within one month of the trolley's retrieval, if –
    - (i) council has notified the person of the location of that shopping trolley; and
    - (ii) that shopping trolley has not been retrieved within 24 hours of being notified.
- 24.2 Clause 24.1 does not apply to –
- (a) a person who has permission to remove a shopping trolley from the business premises for operational reasons (for example replace or repair) from a person who is responsible for the operation of a business that provides shopping trolleys; or
  - (b) to a business that provides less than 10 shopping trolleys.
- 24.3 A person who uses a shopping trolley for whatever reason (for example a customer) must not remove that shopping trolley from the premises of the business for which is it is provided.

Explanatory note: All fees prescribed under this clause are recoverable under section 187 of Local Government Act 2002 and set in documentation outside of this Bylaw.

sNon-compliance with conditions of a licence

Part 4 - Enforcement Powers

- 23.0 Where a licence holder does not comply with the terms and conditions of the licence, the Council may take one or more of the following steps:
- 23.0.0 Issue a written warning to the licence holder, which may be considered as evidence of a prior breach of a licence condition during any subsequent review of the licence;
- 23.0.0 Review the licence, which may result in:-
- (-) amendment of the licence; or
  - (-) suspension of the licence; or
  - (-) withdrawal of the licence.
- 23.0.0 Have recourse to any performance bond or security where the Council has incurred any cost as a result of the breach of the licence condition, including where the Council has itself performed or arranged for the performance of any licensed activity on the default of the licence holder;
- 23.0.0 Review the amount and nature of the performance bond or security, which may result in:
- (-) an increase of the amount of the performance bond or security;
  - (-) a change to the nature of the security that has been provided.
- 23.0.0 Enforce any offence that may have been committed under the Litter Act 1979;
- 23.0.0 Enforce any breach of this bylaw, as provided for in the Health Act 1956, the Local Government Act 2002 and the Waste Minimisation Act 2008.

- 2425 Non-compliance with conditions for collection of waste from a public place
- 24.125.1 Where a person does not comply with clauses subparts 1 to 3 7, 8, 9, 152 or 163 the waste collector may:
- 24.1.1(a) Reject (i.e. not collect) the contents of any approved container/receptacle left out by that person for collection from a public place, if the contents or placement of the container/receptacle is noncompliant;
- (b) 27.1.230.1.2 Remove the contents of any approved container/receptacle left out for collection from a public place, where the contents or placement of the
