5. DOG KENNEL STANDARDS

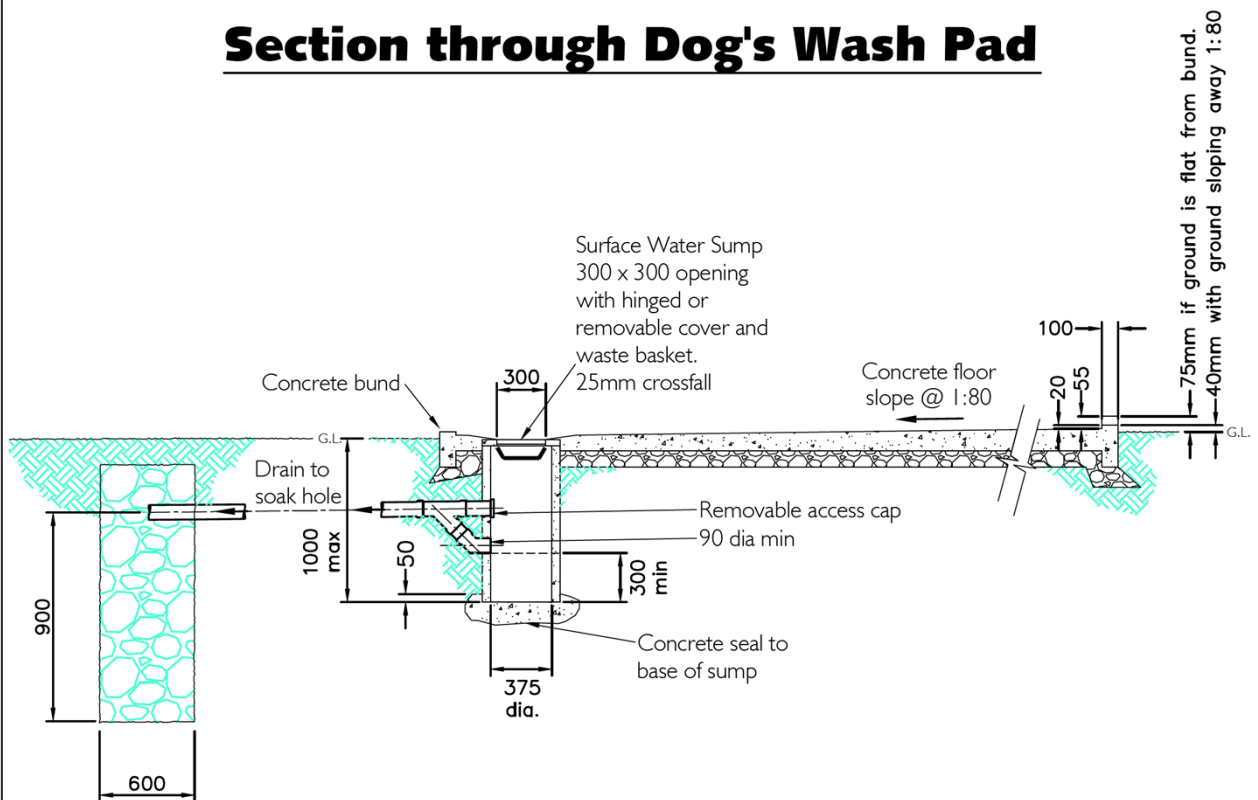

The following sets out the minimum standards of housing in cases of applications to keep three or more dogs: [refer to attached standard drawing for pre-treatment of dog kennels not connected to Council's Sewerage System]

1. Kennels are not to be sited closer than 6 metres to a neighbouring residential building and 1 metre from any boundary of the applicant's property.
2. If a permanent as opposed to a moveable kennel and run is to be constructed the base area of the run must be concreted to an approved standard with a concrete nib wall around the base of the concrete pad no less than 200mm in height with adequate falls to a gully trap.
3. A water supply must be available in order to facilitate cleaning and the supply of fresh drinking water.
4. The entire kennel requires to be maintained in a sanitary condition at all times.
5. Dogs may be housed other than in outdoor kennels, having regard to the individual circumstances of each case, subject to any condition that may be imposed.
6. A building consent will be required for structures over 10 square metres.
